Education

Thapar Institute of Engineering and Technology

July 2023 – June 2026

B.E. Computer Engineering

Aligarh Muslim University

Dec 2020 – May 2023

Diploma in Computer Engineering

Profile

Engineering student working at the intersection of **Generative AI and prompt engineering**. Experienced in building AI chatbots and LLM-powered applications using Gemini and Groq APIs. Strong interest in translating AI systems into structured, clear narratives and repeatable AI-driven workflows for enterprise use cases.

Experience

Xebia

June 2025 – July 2025

Full Stack Developer Intern (AI-integrated workflows)

Remote

- Designed prompt flows and implemented an AI-powered chatbot using Google Gemini API for real-time assistance.
- Built automated notification workflows using Twilio (SMS) and SendGrid (Email).
- Structured AI responses for clarity, reliability, and user understanding in production flows.

Sahu Technologies

Sept 2022 – Oct 2022

Web Developer Intern

Remote

- Recreated responsive web pages and contributed structured educational content for the EdTech platform.

Projects

AURA DeFi Telegram Bot | *Node.js, SQLite, Groq API*

[Project Link](#)

- Built an AI-driven Telegram bot for multi-chain portfolio analysis using wallet addresses.
- Designed prompt structures for AI-generated financial explanations and recommendations.
- Ensured AI responses were educational, structured, and context-aware.

Eventcraft AI Chatbot | *React, Node.js, Gemini, Twilio, SendGrid*

[Project Link](#)

- Integrated an AI chatbot using Gemini API for real-time event assistance.
- Architected automated communication workflows for participants.

Supply Chain SQL Analytics | *MySQL*

[Project Link](#)

- Designed SQL analytics using window functions to derive KPIs and insights.
- Translated datasets into decision-support narratives through structured querying.

Technical Skills

Generative AI & Prompt Engineering: Gemini API, Groq API, GPT tools, prompt iteration

Understanding of: LLMs, RAG concepts, AI agents, content structuring

Development: JavaScript, Node.js, React, Express, SQL, MongoDB

Tools: Git, GitHub, VS Code, Canva, Stitch, Flow, Cursor

Achievements

Winner — Dream Feature Challenge (Bolt.new), USD \$1000 prize.

Overall Runner-up — AgentForce Hackathon 2025.

Finalist — Zelestra × AWS Ascend Challenge (22nd among 1000+ teams).

1st Place — IET India National Essay Writing Competition 2023.

Winner — The Peregrine Prize, Plotly Analytics Vibe-a-Thon.

3rd Place — Web Warrior Challenge by Hackathon Raptors, USD \$200 prize.
